## PROJECT UNDERTAKEN

### URBANCOMPANY.COM

- Urban Company is an Indian gig marketplace that offers home installation, maintenance and repair services, and home beauty and wellness services.
- Tech Stack: React-Redux, Material-UI, Firebase.
- Collaborative project, accomplished along with 2 team members in 10 days.
- My task is to create a landing page, creating a server adding authentication, and also some cool animation, I also added google location API to get user location.

### DAILYDIETPLAN.COM

- if you want to live a healthy life without compromising taste, DailyDietPlan.com is for you.
- Tech Stack: HTML, CSS, JavaScript, Local Server
- Collaborative project, accomplished along with 3 team members in 3 days
- My task is to add products from the local server and show on the product page, also adding some filters and sorting feature.

### MONDAY.COM

- Monday.com, legally Monday.com Ltd., is a Cloud-based platform that allows companies to create their own applications and work management software.
- Tech Stack: HTML, CSS, JavaScript.
- Collaborative project, accomplished along with 1 team members in 3 days.
- Worked on creating landing page, adding animation and some cool effects.
