### Project Undertaken

#### URBANCOMPANY.COM

**Github:** <https://github.com/AleemAlam/Urban-Company>

- Urban Company is an Indian gig marketplace that offers home installation, maintenance and repair services, and home beauty and wellness services.
- Tech Stack: React-Redux, Material-UI, Firebase.
- The collaborative project, accomplished along with 2 team members in 10 days.
- My task was to create a landing page, back-end server, adding authentication, and also some cool animation, I also added google location API to get user location.

#### DAILYDIETBOX.COM

**Github:** [https://github.com/Rinishg94/dailydietbox\\_clone](https://github.com/Rinishg94/dailydietbox_clone)

- if you want to live a healthy life without compromising taste, DailyDietPlan.com is for you.
- Tech Stack: HTML, CSS, JavaScript, Local Server
- The Collaborative project, accomplished along with 3 team members in 3 days
- My task was to add products from the local server and show on the product page, also adding some filters and sorting feature.

#### MONDAY.COM

**Github:** <https://github.com/AleemAlam/monday.com-clone>

- Monday.com, legally Monday.com Ltd., is a Cloud-based platform that allows companies to create their own applications and work management software.
- Tech Stack: HTML, CSS, JavaScript.
- The collaborative project, accomplished along with 1 team member in 3 days.
- My task was to create a landing page, adding animation and some effects..
